

Aden Kingi

Graduate Software Developer | Tauranga, New Zealand

027 548 4458 | adenkingi@hotmail.com | github.com/kingithegreat | kingithegreat.github.io

Professional profile

Graduate software developer with a Bachelor of Applied Information Technology (Level 7), awarded in June 2026 with a 92% average. Study built a strong foundation in secure software development, client-server web applications, human-computer interaction, testing and practical problem-solving. Brings this technical foundation together with more than 20 years of hands-on work in trades, installation, operations and customer service.

Education and course learning

Bachelor of Applied Information Technology (Level 7) | Toi Ohomai Institute of Technology

Awarded June 2026 | 92% programme average | Five of six courses graded A+

Secure software development	Applied security principles and threat-aware thinking; Cyber Security: 98 (A+).
Web application development	Built understanding of client-server architecture, application behaviour and data flow; Client-Server Web Development: 96 (A+).
Human-centred design	Used HCI concepts to consider usability, accessibility and how people interact with software; Human-Computer Interaction: 90 (A+).
Independent technical study	Investigated and applied a focused technical topic; Special Topic: 96 (A+).
Capstone and delivery	Planned and developed SADIE, now HomeBot, as a substantial software project; capstone result: 93 (A+). Practised breaking down a large brief, implementing features, testing and refining the result.

Earlier qualifications

Diploma in Software Development (Level 6) · Diploma in Sport and Recreation (Levels 5–6, 2009–2012) · Certificate in Sports Leadership (Level 4, 2009) — Toi Ohomai Institute of Technology

Technical foundation

Programming	TypeScript, JavaScript (Node.js), Python, Kotlin, Luau, HTML/CSS, SQL
Application development	React, Angular, Electron, React Native, Jetpack Compose, Capacitor
Data, cloud and tools	Firebase / Firestore, Git, GitHub Actions, Google Cloud Run, Vercel, Stripe, Ollama
Professional practice	Automated testing, version control, CI/CD, accessibility awareness, secure design, iterative development and clear documentation

Aden Kingi

Software Developer

Applied learning in practice

Selected projects show how I have practised and extended the skills developed through my degree. They support my course-based foundation; my main evidence is the learning and results above.

HomeBot (formerly SADIE) — AI desktop assistant

Electron · React · TypeScript

Capstone project applying software design, implementation, security and testing. Includes local AI through Ollama and permission-gated tools.

BusinessFlow — website builder

Angular · Firebase · Stripe

Built a small-business web product with a page builder, enquiry handling and subscription billing; deployed on Google Cloud Run.

Roblox and mobile projects

Luau · Kotlin · React · GitHub Actions

Created game and mobile application projects, using automated checks and deployment workflows to practise reliable delivery.

Employment history

Retail Sales Associate

Phone Life, Tauranga Crossing | Apr 2026–Present

Help customers choose phones, plans and accessories by translating technical details into clear recommendations. Handle sales transactions, stock and day-to-day store tasks.

Student Employment

Aqua 360 and Subway, Tauranga | 2023–2026

Supported jetski rental operations, safety briefings and bookings, alongside food safety and front-of-house service while completing full-time study.

Installation Technician

HomePlus, Tauranga | 2022–2023

Installed security screens, wardrobes, awnings and balustrades; measured on site, consulted with clients and coordinated installation work.

Aluminium Joiner and Fabricator

Tasman Aluminium, Tauranga | 2017–2022

Fabricated architectural joinery from technical drawings, with care for precision, finish and safe work practices.

Earlier hands-on experience

Recreation Facility Officer · The Tech Arena, Tauranga (2011–2013) | Sports Centre Assistant · Mount Action Centre (2009–2011) | Glass Processor · Metro Glass (2007–2008) | Stone Mason, self-employed and contract · Queenstown and Tauranga (2002–2006) | Boat Builder · Tauranga (2000–2002)

Transferable strengths

Precision and quality habits from fabrication and installation work · Practical problem-solving · Health and safety discipline · Clear customer communication · Reliable, self-directed work · Comfortable learning new tools and finishing tasks to a high standard
